1/ It should be noted that the election not to pool milk normally associated with an order due to a disadvantageous price relationship affects the comparability of this statistics. See footnotes on Table 26. Figures shown for All Markets Combined and AVERAGE are computed from the applicable monthly or year-to-date totals of producer milk used in Class IV and total producer milk from the applicable monthly or year-to-date totals of producer milk used in Class IV and total producer milk.

4/ Effective April 1, 2004, the Western Federal milk order was terminated.
